SUMMARY

Mobile Application Developer with hands-on experience building production-grade Flutter applications integrated with Firebase and REST APIs. Currently developing two full-scale applications (service-taker and service-provider) for an on-demand service platform — handling frontend development and backend integration end-to-end. Strong foundation in role-based systems, responsive UI, and cross-functional collaborative development.

WORK EXPERIENCE

Flutter Developer (Part-Time) — Varna Infotech (Mechzie) 05/2026 – Present
Visakhapatnam

- Built and shipped two complete Flutter applications — Service Taker and Service Provider — for Mechzie, an on-demand automobile service platform, owning frontend development and backend integration end-to-end.
- Integrated Firebase Authentication, Cloud Firestore, and REST APIs to connect application workflows with backend services, collaborating with a 3-member cross-functional team (backend developer, UI/UX designer).
- Implemented role-based access workflows, user dashboards, and scalable mobile features across both applications.
- Worked directly with the Managing Director and team to ensure smooth development cycles and launch readiness.

Android Developer Trainee — HCL Tech 01/2024 – 04/2024

- Developed Cyclot, a Flutter-based bike management app for allocation tracking, returns, and inventory operations.
- Implemented role-based access control (Employee, Security, Admin) using Firebase Authentication and Cloud Firestore.
- Built dashboard interfaces and chart-based data visualization using fl_chart.

PROJECTS

UNIHUB

- Developed the Flutter frontend for an AI-powered study assistant application supporting AI chat, study planning, and document scanning features.
- Integrated Firebase Authentication and connected UI workflows with backend-driven AI functionalities.
- Designed reusable and responsive UI components optimized for mobile usability.

TECHNICAL SKILLS

Languages: Java, Dart, Python, SQL, C

Frameworks & Tools: Flutter, Firebase (Auth, Firestore), Git, GitHub, REST API Integration

CERTIFICATIONS

Internship Completion Certificate
HCL - Tech

TCS ION Career Edge - Young Professional

Python Completion Certificate
Reliance Foundation Skilling Academy

Flutter Course Completion Certificate
ICTRD

Java Course Completion Certificate
NPTEL

SQL & DBMS Certificate
Great Learning

EDUCATION

Bachelor of Technology [CSE] 2024 – 2027
Raghu Engineering College
8.9 CGPA

Computer Engineering [CME] 2021 – 2024
Government Polytechnic College
81.57 %

Secondary School Certificate [SSC] 2020
Aditya Public School
84.8 %
